

Calculating study load of a module

All hours are included when the study load is calculated: contact hours, study tasks, preparation for exam, doing the exam, reading literature, etc. Excluded are the hours for a second chance exam.

The calculation of the hours for literature study is based on pages of *nearly three hundred words*. As a guideline, the number of pages per hour are listed in the following scheme.

Objective	Difficult	Average	Easy
Light	8 pages / hour	13 pages / hour	20 pages / hour
Moderate	6 pages / hour	10 pages / hour	15 pages / hour
Heavy	4 pages / hour	7 pages / hour	10 pages / hour

Example for a module part (5 EC = 140 hours)

Week	1	2	3	4	5	6	7	8	9	10
Lectures	2	2	2	2	2	2	2	2		
Tutorials		2	2	2	2	2	2	2	2	
Literature study	6	6	6	6	6	6	6	6		
Group assignment						8	8	8	8	8
Individual assignment		4	4	4	4					
Exam										4
Total	8	14	14	14	14	18	18	18	10	12
