Structure of the Regulations:

as part of the Profiling Fund pursuant to Article 7:51 of the Higher Education and Research Act (WHW)

Chapter 1: General
Chapter 2: Force Majeure Allowance Regulation
Chapter 3: Activism Grants Regulation
Chapter 4: Support Scheme for Top-Level Sports and Support Scheme for Top-Level Arts

Annex A: Special Circumstances under the Law
Annex B: Description of Allocation of Activism Grants and Fixed Basic List for Activism Grants
Annex C: Procedure additional and ad-hoc activism grants

TEXT OF THE REGULATION
Note: The masculine form for persons has been chosen for this Regulation solely for simplicity’s sake; this designation, however, shall refer both to men and women.
Chapter 1: General: Applicable to Chapters 2 through 4 and Annex A, B and C

Reading guide:
This regulation is intended for all students of the UT. These may, if they meet the conditions of the scheme, be eligible for financial support in the form of a reimbursement tuition fee for unused services. This regulation is subdivided in:
- Force Majeure Allowance in case of recognized special circumstances;
- Activism grants for committee- or board positions at an organization/association recognized by the UT;
- Top-level sports-/Top-level arts grants if they are recognized by the Support Scheme for Top-Level Sports and Support Scheme for Top-Level Arts.
The special circumstances are laid down in Appendix A. The recognized associations and organizations are laid down in Appendix B.

Article 1. Definitions
In this Regulation, the following definitions shall apply:

a. Activism Grant: the incentive granted for extracurricular activities;
b. Committee Top-level Sports: a three-headed committee consisting of:
   - SU portfolio holder Sport & Culture or a member of the sports umbrella organization;
   - The head of Sports Centre UT;
   - A student counsellor UT.
   The committee is charged with assessing whether a student can be labeled as a top-level athlete and the category of recognition;
c. Committee Top-level Arts: a three-headed committee consisting of:
   - President of umbrella organization Apollo;
   - The head of Culture Centre UT;
   - A student counsellor UT.
   The committee is charged with assessing whether a student can be labeled as a top-level artist and the category of recognition;
d. CPO: the Committee Personal Circumstances (Commissie Persoonlijke Omstandigheden) has been charged by the Executive Board to assess the validity of the circumstances as put down in the WHW 7.51 and determine on the support;
e. CvB: the Executive Board of the University of Twente, charged with establishing grants and allowances for persons entitled to support;
f. Recognized circumstances: the circumstances referred to in Annex A to this regulation;
g. FOBOS: this regulation Financial Support for Students’ Special Circumstances;
h. Extracurricular activities: activities besides the educational programme which supplement the programme by helping the student to obtain the relevant competences;
i. Not decreased services: the educational services which the student due to circumstances could not use;
j. Extent of the support: the support expressed in months or grants;
k. Person entitled to support: a student to whom financial support has been awarded by the CvB under this FOBOS Regulation;
l. Athlete with an A-status: the Dutch athlete deserves an A-status when he meets the performance standard as established after consultation with the concerning federation and the NOC*NSF. International students with proven similar level are also included in this category. The principle of this standard implies that the athlete demonstrates to belong to the global top-8 of the World Cup or the Paralympics or the Olympics or to qualify for the Olympics;
m. Athlete with a High Potential status: in exceptional cases, where there is an extraordinary perspective on rapid accession to the global top-8 and a high prospect of a position at the global top-3 the NOC*NSF can grant a Dutch athlete the status of High Potential (HP) International students with proven similar level are also included in this category;
n. **Athlete with a B-status**: the athlete who has demonstrated to belong to the global top-16. This means that the athlete is to end with the first 16 during a World Cup or the Paralympics or Olympics. International students with proven similar level are also included in this category;

o. **Student**: a person enrolled as a full-time student for a funded bachelor’s- or master’s degree programme at the University of Twente;

p. **Study Advisor**: every degree programme has a study advisor, who is the first point of contact for students potentially facing a study delay due to special circumstances. For students from non-EEA countries, the first point of contact may also be a FAINCO (Faculty Internationalization Coordinator). Students of the ITC faculty can contact their course director or student affairs officer;

q. **Student Union**: the University of Twente’s Student Union, the umbrella organization for student activism at the University of Twente and responsible for students’ academic development;

r. **Custom-made tutoring**: the implementation of the students’ integrated sports- or arts plan and study plan by the concerning educational programme, which has been drawn up between the student and the educational programme. It concerns special agreements, such as oral examination, respite for performance, etc. The student takes the initiative in contacting the study advisor;

s. **Force Majeure Allowance**: the financial support awarded to a student by the CvB under the Force Majeure Allowance Regulation;

t. **Review Committee**: the Student Union is responsible for assessing the criteria for awarding activism grants for extracurricular activities and for determining the amount for statutory board positions as set forth in Chapters 3 and/or Annex B;

u. **Top-level arts grant**: the grant awarded to a recognized top-level artist cat. 1;

v. **Top-level athlete grant**: the grant awarded to a recognized top-level athlete cat. 1;

w. **Top-level athlete**: the UT student who is recognized as such within the context of the Support Scheme for Top-Level Sports;

x. **Top-level arts practitioner**: the UT student who is recognized as such within the context of the Support Scheme for Top-Level Arts;

y. **Team Twente Teams Board (TTT Board)**: umbrella board of the Team Twente Teams. This board is concerned with the overall interests of the Team Twente Teams and will facilitate cooperation wherever possible and desirable.

z. **WHW**: the Higher Education and Research Act; dd.

aa. **UT**: University of Twente.

**Article 2. Basis for the Regulation**

This Regulation is based on WHW Article 7:51, specifically, the Profiling Fund.

This Regulation is a further elaboration of the law.

**Article 3. Persons entitled to support**

The following students shall be eligible for the Force Majeure Allowance, Activism Grants, Top-level Sports Grants and Top-level Arts Grants:

1. Those for whom the CvB has determined that one or more of the recognized circumstances listed in Annex A have occurred, and

2. Those enrolled in a fulltime funded UT Bachelors’- or Masters’ programme or the two-year non-funded Masters’ programme Geo-information Science and Earth Observation and having paid the required tuition fee to the UT.

If not entitled to support are those:

3. That are enrolled solely for a premasters’ programme or a non-funded educational programme (except the above-mentioned two-year non-funded Masters’ programme Geo-information Science and Earth Observation);

4. Who, based on a previously obtained degree, pay the institutional fee;

Students in any other form of enrollment at the UT (e.g. premaster students), can – solely on the grounds of an insufficient feasible programme - be classified as persons entitled to support.
Distinction must be made between:
A. The circumstances listed under 1(b) through (e and g) in Annex B, that is, force majeure, which is described further in Chapter 2;
B. The circumstances listed under 1(a), in Annex A, that is, activism grants, which are described further in Chapter 3;
C. The circumstances listed under 1 (f) in Annex A, that is practice top-level sports or top culture, which are described further in Chapter 4.

Article 4. Compensation period
A right to financial support under this regulation because of special circumstances may only arise based on circumstances occurring during the compensation period.

a. The compensation period is limited to the programme's nominal study duration plus one extension year (C+1), calculated from the initial moment of enrolment for this study phase (Bachelor’s or Master’s) in higher education. If a student's registration is temporarily suspended, then only those months will count during which the applicant was registered as a student in higher education. This applies both to the Bachelor's and Master’s phase.

b. If the student graduates or withdraws from the degree programme during the period mentioned under a, then the compensation period will end at that point.

c. The compensation period of C+1 does not apply to activism grants based on membership on the University Council.

Article 5. Concurrent grants
1. In the case of concurrent voluntary circumstances (i.e. activism, top-level sports and top-level arts as provided for in Chapter 3 and 4 of this Regulation) and other involuntary recognized circumstances, the number of recognized months of Force Majeure Allowance will not be multiplied. For the total compensation period at the UT a maximum of 24 months with a maximum amount of € 8,000,- force majeure allowance can be granted.

2. For remuneration based on extracurricular activities via activism grants and participation in top-level sports or top-level arts activities, a student may receive during the total compensation period at most financial remuneration for 18 grants. As from academic year 2018/2019 a student may receive during the total compensation period at most financial remuneration for 24 grants with a maximum amount of € 8,000,-. Per calendar year no more than 12 grants and/or months will be granted for activism, top-level sports, top-level arts and force majeure all together.

Article 6. Decision on the application
The CPO, as the CvB’s delegated committee, shall ascertain whether the circumstance reported makes the student eligible to receive support.

Article 7. Objection and appeal
1. In sending the decision on the CvB’s behalf as referred to in Article 6, the CPO shall inform the applicant that an objection to the decision may be filed with the UT Complaints Desk. The period for lodging the objection shall be six weeks from the date that the decision was sent to the applicant.

2. The UT Complaints Desk shall confirm in writing that the notice of objection referred to in paragraph 1 has been received. After obtaining a recommendation from the Arbitration Board, the CvB shall decide the notice of objection within 10 weeks of the day after the notice was send.

3. In sending the decision on the notice of objection, the CvB shall inform the applicant that he/she may file an appeal with the Higher Education Appeals Tribunal referred to in Article 7 64 of the Act within six weeks of the date that the decision was sent to the applicant.

Article 8. Hardship clause
If application of this Regulation would result in extreme unfairness, the CPO may deviate from this Regulation in the student’s favor.
Article 9. Unforeseen situations
In situations not provided for in this Regulation, the CPO shall decide the matter on behalf of the CvB.

Article 10. Effective Date
This Regulation is enacted on 3 December 2017 and come into effect on 1 January 2018 and is applicable to requests that are submitted on or after that date.
The regulation 2016/2017 continues to apply for:
• requests for a force majeure allowance submitted in the period 1 September 2017 and 1 January 2018;
• requests for activism grants for calendar year 2017;
• students who are a recognized or shall be recognized as a top-level athlete of top-level artist for academic year 2017/2018.

Article 11. Short title
This Regulation may be cited as the “Regulation on Financial Support for Special Circumstances of Students (FOBOS), January 2018”.
Chapter 2: Force Majeure Allowance Regulation (involuntary circumstances)

Article 1. Notification procedure for a force majeure allowance
1. During the compensation period, the student is only eligible for a Force Majeure Allowance based on the circumstances listed in Annex A, 1 (b-d, g). He student must report these circumstances to the study advisor as soon as reasonably possible once the problem has become apparent.
2. Students who are experiencing difficulty keeping up with their studies (Annex A, under 1(e)) must report the problem to the study advisor or student counsellor as soon as possible, i.e. within a few weeks after becoming aware of the problem.
3. The study advisor will work with the student to identify strategies that will enable the student to make progress in his/her studies in light of the circumstances. If this should involve an adaptation to the study plan, then the Programme Board will advise and the adaptation will be noted in the student’s file.
4. If a study delay occurs due to the aforementioned circumstances, then the student must report the delay to the student counsellor. This report must be submitted within three months after the delay commences.

Article 2. Application procedure for a force majeure allowance in the case of illness or exceptional family circumstances
1. If a student wishes to apply for a Force Majeure Allowance due to circumstances as mentioned in Annex A, 1 (b-d, f-g) (force majeure), then the application must be submitted within three months of the circumstances causing the study delay. An online application form is available for this purpose (http://webapps.utwente.nl/sst).
2. The application will only be considered if the student has first spoken with the study advisor and the student counsellor.
3. The student must be able to substantiate the medical/psychological circumstances with a statement from a physician or psychologist with a BIG registration. If the nature of the circumstances preclude this, then the student will consult with the student counsellor on how to provide appropriate substantiation.
4. The CPO will review the circumstances and period for admissibility and determines the extent of the support. The CPO will report its findings to the student.

Article 3. Application procedure for a force majeure allowance in the case of an insufficient feasible programme
1. If a student wishes to apply for a Force Majeure Allowance due to an insufficient educational feasibility (of a component: module, block, semester) – Annex A, 1(e) – in his degree programme, then the application must be submitted within three months following the period of the insufficient feasible programme.
2. The student must notify the study advisor or the student counsellor during the period of the insufficient feasible programme, or the application will not be taken into consideration.
3. The student must submit the application to the CPO. The Programme Director of the relevant degree programme will receive a copy of the student’s personal statement along with the application form. This will be accompanied by a request to respond to the application.
4. The CPO will notify the student to report on the arrangements made with the degree programme aimed at preventing current or further delay.
5. The student will receive a copy of the Programme Director’s response to the CPO regarding the student’s situation.
6. The CPO will assess the application and the responses to it.
7. If necessary, and at the discretion of the CPO, a hearing will be scheduled during which both the student and the Programme Director will have the opportunity to explain their responses. The student and the Programme Director will be invited to the hearing in good time. The CPO may avail itself of the hearing to ask additional questions.
8. If a hearing has taken place, then both the student and the Programme Director will receive a brief report of the contents of the hearing.

9. The CPO will review the circumstances and period for admissibility and determines the extent of the support. The CPO will report its findings to the student.

**Article 4. Determining the compensation**

1. The support for involuntary circumstances is determined by the number of months during the compensation period for which the study delay was recognized. This number will be reduced with the ECTS, as recorded in Osiris, obtained in that recognized delayed period, which will be converted to months. There is assumed to be a nominal study pace of 5 ECTS per month.

2. ECTS obtained during the recognized delayed period for a resit are not included.

3. The number of months compensation can never be more than the number of months that remains of the education program at the beginning of the recognized period. Subjects that need a resit are not included.

4. Study results, recorded in Osiris, in the delayed period who patently relate to a study effort in a different period, are not counted for the support.

5. When the end date of the force majeure period cannot be determined because of the chronic nature thereof, the end date of the compensation period is used. If the student ends his study in the compensation period, that end date is used.

**Article 5. Nature and scope of the Force Majeure Allowance**

1. The Force Majeure Allowance consists of a monetary grant for each approved month of study delay to be paid by the university to the student if he/she meets the requirements set forth in these Regulations.

2. The grant for each approved month of delay amounts to a compensation of the required monthly amount tuition fee for the recognized delayed period.

3. The disbursement of the support provided will be done in a lump sum for each recognized circumstance. Disbursement will take place in principle within 3 months after submitting the application.

4. The maximum Force Majeure Allowance available per person based on these Regulations for the entire period of enrolment at UT is 24 months with a maximum amount of €8,000.
Chapter 3: Activism Grants Regulation (voluntary circumstances)

Introduction
This Chapter elaborates on Articles 7.51(2) and 7.51(2)(b) of the Act with respect to remuneration for extracurricular activities engaged in by students and eligibility for activism grants for these activities.

In its Opinion on Extracurricular Activities, the University of Twente (UT) has indicated several principles which this Activism Grants Regulation details further. These principles are:
- Academic and personal development through extracurricular activities supplements the educational programme;
- Extracurricular activities complete the student's academic and personal development;
- UT shall facilitate extracurricular activities.

This Regulation is intended to offer financial remuneration to students for the time spent on organizing an activity. Eligibility for an activism grant can be viewed as remuneration for extracurricular activities which boost UT's profile and help to maintain student services. The remuneration shall not depend on the number of months of study delay.

Article 1: Conditions for support
To be eligible for activism grants, the student must fulfil all of the conditions below:
1. The student is enrolled as a full-time student at UT and the student is paying tuition fees to UT.
2. The student has not obtained a degree for the programme for which he/she is enrolled. An exception may be made if the student is pursuing a double degree programme.
3. The student holds a position with a student organization to which UT activism grants have been awarded, or the student organization is included in Category 1 of the basic list in Annex B and is eligible on this basis for a grant because of ad-hoc/extra activities.
4. Students in the first year of their Bachelor programme holding a position with a student organization applicable for activism grants according to Appendix B of the FOBOS regulation, receive this compensation whenever a positive binding recommendation is obtained over the concerning academic year. When the students binding recommendation (BSA) has been postponed, the activism grants can be granted when the student has been awarded a positive decision of his BSA.
5. If a student wishes to receive financial support on account of holding a position referred to in Article 7:51(6) of the Act or a board position in a political youth organization or a nationwide association, the application must be submitted to the institution designated by the Ministry to carry out that Article.
6. A student enrolled as a Bachelor's student for a pre-Master's programme or for a post-initial programme shall not be entitled to remuneration for board activities.

Article 2: Period of entitlement to support for extracurricular activities
1. A student shall only be entitled to activism grants – except activism grants for University Council membership - if the recognizable period falls within the first four years of enrolment as a Bachelor's student at UT, counted from the first moment of enrolment at the UT and previous to the recognizable period received a positive Binding Recommendation (BSA).
2. A student shall only be entitled to activism grants – except activism grants for University Council membership - if the recognizable period falls within the first two years of enrolment as a Master's student counted from the first moment of enrolment at the a Master’s programme at UT with a nominal study duration of one year. If the study duration is longer, this period shall be extended by a period equal to the period in which the programme takes longer than one year.
3. The right for activism grants based on a University Council membership will not be limited for Bachelor or Master students by duration of enrolment.
Article 3: Amount of the support
1. The activism grant consists of a gift, which, at the request of the student, is provided to him by the UT if he has complied with the terms mentioned in this regulation.
2. The compensation per grant is equal to \( \frac{1}{12} \)th of the payable tuition fee per 1 September prior to the calendar year. Per calendar year the activism grants per person are limited to 12 grants. If in the same period also grants for top-level sports of top-level arts are granted or months of force majeure allowances, these will be included for this yearly total.

Article 4: Application procedure
A student organization board or committee which is eligible for remuneration in the form of activism grants must submit their application at the end of each calendar year but before 1 April at the very latest (https://webapps.utwente.nl/sst).
The students mentioned in the application need then to complete that application with their individual data and indicate to agree with the application.
When under the named students there are those with a postponed binding recommendation, the processing of the application will be postponed till after the period of the postponed binding recommendation.

Article 5: Allocation of activism grants
1. Once every two years, the CPO shall, as the Review Committee, review the criteria for allocating activism grants to recognized associations/organizations for extracurricular activities and for determining the number and details of the positions set forth in the basic list in Annex B.
   New associations may be recognized in the meantime and subsequently placed in one of the Categories included in the basic list in Annex B.
2. Once a year, recognized associations included in the basic list may apply for additional and/or ad-hoc grants (see the procedure in Annex C).
3. In performing the review, the CPO shall, besides a number of general principles, apply a number of weighting factors which, depending on the type of organization or position, may be given consideration. In its review, the CPO shall obtain advice from the Student Union.
4. The CPO shall make a recommendation to the CvB about the allocation of activism grants to student associations and organizations and positions. The CPO’s advice shall include the advice from the Student Union. The CvB shall determine the allocation.
Chapter 4: Support Scheme for Top-Level Sports and Support Scheme for Top-Level Arts

Support Scheme for Top-Level Sports

Reading guide:
Combining university-level studies and top-level sports can be problematic for many students. It generally proves impossible to postpone either academic studies or a career in sport until later: both the study as the sports require of the practitioner - often between the ages of 18 and 25 - to achieve results within a relatively short period of time. The University of Twente is aware of the problems involved, and has developed a policy covering the practice of top-level sports and a support scheme for top-level sports.

Under this policy, the university strives to foster a positive climate in which students practicing top-level sports are able to find the ideal balance between study and sport, within certain parameters set by the university. The goal of the policy should be to ensure that student athletes can complete their course of study within a reasonable period of time and can simultaneously achieve the results they desire in the field of sport, drawing on their own resources and those provided by the university. It is important to note that the University of Twente’s sport policy is not intended to provide for the targeted recruitment of potential top-level athletes among students in secondary school or higher professional education (HBO). Neither does the university seek to develop into an American-style ‘basketball university’.

Top-level athletes make a valuable contribution to the university. They serve as role models for their fellow athletes, as well as for their fellow students. Top-level student athletes who achieve impressive results in their field also reflect well on the university. When these students receive media coverage for their sporting achievements, the University of Twente will naturally be mentioned, thereby generating publicity for the university.

Introduction
The Support Scheme for Top-Level Sports offers three types of support to accredited athletes studying at the University of Twente who are eligible for participation, depending on the status they hold:
1. Made-to-measure tutoring;
2. Financial support;
3. Use of university facilities.

Student athletes who have not yet reached the absolute top of their field (at the level of an A-, B- or HP status), may yet be able to achieve this status through the provisions of this Scheme. This support scheme offers student athletes the opportunity to combine sport and study in a responsible, achievable way.

All top-level athletes, including those who are disabled, are eligible for participation in the support scheme. This means that the scheme also applies to students who are training for the Olympics (summer and winter) as well as the Paralympic Games.

Article 1. Qualification procedure
In order to qualify for participation in the support scheme, students must submit a request each year - if applicable – for recognition as a top-level athlete before 1 April of the current academic year. The Top-Level Sports Committee will make a recommendation to the CPO concerning your request. The CPO will make a decision within 10 weeks after receiving the request. A request can be submitted through the online application form: https://www.utwente.nl/en/ces/sacc/regulations/fobos/top-application/

This application must contain:
1. A personal written statement containing a description of the type of sport, an indication of the time spend on the sport, and a brief impression of the sporting career (competitions and achievements);

2. An official statement from the sports federation that lists the current performance level.

The top-level student athletes must be able to demonstrate that they belong to categories 1 or 2, as listed in section 3. Applications based on the qualifications that have since expired will not be honored.
Article 2. Categories of top-level athletes
The Top-Level Sports Committee assess whether student athletes meet the criteria listed in this section.

1. General
   - The sport in which the Dutch student participates must be a category 1 or category 2 top-level sports as determined by NOC*NSF (for a list of Category 1 and 2: www.nocnsf.nl). A similar level applies to international athletes.
   Please note: exceptions may be granted for sports with a specific link to the University of Twente.
   - The time investment must per week include at least 10 hours training and/or at least 4 sport-specific (team) training sessions (not including travel time).

2. There are 2 categories with the following criteria:
   - Category 1:
     • Dutch athletes recognized by the NOC*NSF who hold an A-, HP- or B-status or an international athlete with the similar level;
     • Athletes who compete at the highest international senior level;
     • Athletes who compete at the highest international junior level;
   - Category 2:
     Athletes who compete at the national level:
     • Athletes who compete at a high national level in the senior category;
     • Athletes who previously belonged to category 1 and will re-join that category in the short term.

Article 3. Types of support
The support can consist of:
1. Custom-made tutoring;
2. Top-level sports grants;
3. Facility support for the purpose of free use of UT facilities.

Ad. 1. Custom-made tutoring
   All accredited athletes who fall under the categories 1 and 2 are entitled to ‘custom made tutoring’. The student should devise an integrated sport and study plan in consultation with their faculty supervisor at least once per semester. This plan should strike the ideal balance between education and sport: it focalizes especially on the bottle-necks which the athlete and study adviser might have foreseen.

Ad. 2. A top-level sports grants
In addition to custom-made tutoring, all accredited athletes who fall under category 1 are entitled to financial support in the form of top-level sports grants. For each academic year in which a UT student is recognized as a top-level athlete, an application for the maximum of top-level sports grants may be submitted.

Over the total period of enrolment at the UT a student may receive no more than 18 top-level sports grants, top-level arts grants and activism grants together. As from academic year 2018/2019 this maximum is set at 24 grants with a maximum amount of € 8,000. The amount of the top-level sports grant is equal to 1/12th of the tuition fee payable for the concerning academic year.

Disbursement:
To qualify for a top-level sports grant, the student can submit an application at the end of the academic year through the online application form (https://webapps.utwente.nl/sst). Please note: disbursement of a top-level sports grant is only possible if the student has met the provisions of the Support Scheme for Top-Level Sports. This can be monitored.
Those who wish to qualify for disbursement of the grants and are recognized as a top-level sportsman, the conditions mentioned in chapter 1, article 3, persons entitled to support, apply.

Ad. 3. **Facility Support (use of facilities)**

In addition to the above-mentioned forms of support, also the use of certain university facilities can be requested. This applies to the accredited athletes **who fall under the categories 1 and 2** (see table below).

In consultation with the Top-Level Sports Committee, the eligible students are allowed to freely use the university sports facilities, such as gyms, and receive the UnionCard free of charge. This allows students to cut down on the travel time needed to practice their sport and maintain their physical condition. The forms of support described above are summarized in the table below. Declarations of the costs can be submitted through the online application form ([https://webapps.utwente.nl/sst](https://webapps.utwente.nl/sst)).

**Article 4. Public relations**

All accredited athletes should be prepared to act as ambassador for the University of Twente when it comes to their sporting achievements. Separate arrangements can be made with each of the athletes in this regard.
Support Scheme for Top-Level Arts

Reading guide:
The scheme is designed to enable students to successfully combine academic studies with top-level artistic pursuits. It is not intended for students who plan on making a career out of their artistic talents outside of the University of Twente (such as comedians, musicians or actors). Instead, the scheme aims to provide support for students who are committed to completing their studies and who would also like to participate in a top-level artistic activity during their time at the University of Twente.

Real-life example:
A talented pianist who takes part in national or European piano competitions and needs not only a space in which to practice, but also financial support for travel/accommodations/entrance fees for the competitions.

Article 1. The scheme
Where possible, the Support Scheme for Top-Level Arts is analogous to the Support Scheme for Top-Level Sports, though it is intended for students who engage in top-level artistic activities rather than sporting activities.

Where possible, The Support Scheme for Top-Level Arts is analogous to the Support Scheme for Top-Level Sports, though it is intended for students who engage in top-level artistic activities.

Article 2. Different provisions:
Rather than a Top-Level Sports Committee, the scheme is supervised by a Top-Level Arts Committee. This committee assesses whether the student can be accredited as top-level arts practitioner and, if so, into which category he falls.
The Top-Level Arts Committee may require written proof from cultural organizations/associations indicating the level of the related top-level cultural activities.
Annex A: Recognized special circumstances (under Article 7.51(2) of the Act)

1. The following special circumstances shall be the only ones based on which the various types of financial support may be obtained (Article 7.51, Act):
   a. The membership of the board of an recognized students’ association as mentioned in Appendix B;
   b. Illness or pregnancy and childbirth;
   c. A physical, sensory or other impairment;
   d. Special family circumstances;
   e. An insufficient feasible programme;
   f. Other special circumstances of students determined by the Executive Board (at the UT those are recognized top-level athletes and top-level artists)
   g. Other circumstances besides those referred to under (a) through (f) above if the Executive Board's not granting a request for financial support based on this would result in extreme unfairness.

2. ‘Illness’ shall also include psychological disorders. For a review of the circumstances based on illness, a certificate from the Dutch attending doctor or psychologist listed in the register under the Individual Healthcare Professions Act (BIG) must be included, showing the nature and duration of these circumstances. The number of months will, as much as possible, be based on the agreements reached in the adapted study plan. An illness sometimes does not necessarily result in a delay, or not immediately. Depending on the nature and seriousness of the illness, the student may still have reasonably been able to perform academically. The effects of an illness may also still be felt for some time, even though the student has officially been declared to be ‘cured’. This shall be taken into account in the assessment. A determination has been made that the applicant must furnish the CPO any desired information regarding the application. When it is a problem to substantiate the application with a written statement of a Dutch BIG-registered doctor of psychologist, the student will have to report to the student counsellor.

3. The special family circumstances referred to in 1(d) above shall include the following circumstances:
   a. Relationship problems for the student concerned;
   b. Housing or social problems for the student concerned;
   c. Illness or death of the partner or family of the student concerned (solely the parents, children, brother or sister);
   d. Divorce of the parents of the student concerned;
   e. Problems adapting to Dutch culture and customs.
   For purposes of the Regulation, the term ‘partner’ shall mean the student’s spouse or the person with whom an unmarried student cohabitates as a life partner. Extracts from the Municipal Personal Records Database must show that they have lived together at the same address for at least six months.

4. The circumstances referred to in 1(a) above have been specified further in Annex B. These relate to activities in connection with the organization and the board of the University and membership in councils and boards.

5. The criterion ‘an insufficient feasible programme’ has been included as a special circumstance in 1(e) above. One example is a curriculum in which all the modules need to be taken in a certain sequence, while these modules are scheduled in such a way that completing the study within the study duration is not reasonably feasible. The student may have a specific combination of modules in which essential modules are scheduled simultaneously. If the student has only a few opportunities to retake the module, this may make the problem worse.
Annex B: Description of Allocation of Activism Grants and Fixed Basic List for Activism Grants

1. Introduction
In its Opinion on Extracurricular Activities (activism), the University of Twente (UT) has laid out several principles concerning extracurricular activities which the Activism Grants Regulation details further. These principles are:
- Academic and personal development through extracurricular activities supplements the educational programme;
- Extracurricular activities complete the student’s academic and personal development;
- UT shall facilitate extracurricular activities.
The support is in those cases are meant as a reward for the activities carried out in addition to the curriculum. The UT is committed to good educational performance and to a nominal study pace.

2. Review Committee
The SU acts as the Review Committee for advising the CPO on the application of the criteria for awarding activism grants to recognized associations form extracurricular activities. Also the Review Committee advises on the determination of the scope of the (statutory) board positions set forth in the chapters 3 and 4 and/or Annex B. For the implementation of this task, the Review Committee shall keep close contact with the CPO registrar.

Once every two years the student associations and organizations shall be evaluated by the Review Committee.
In distributing the grants and assessing the board responsibilities, the Review Committee must adhere to the following principles:
- A maximum number of activism grants to be awarded each year;
- Student organizations qualify for activism grants if their activities benefits student enrolled at the UT;
- The activities do not serve a commercial purpose;
- The activities may only be compensated once per academic year;
- The association may allocate up to the compensation for volunteers.

The following conditions must be met by foundations:
- The range of activities should in principle be accessible to each student belonging to the university community;
- The foundation may allocate up to the compensation for volunteers;
- It must be shown that the actual activities benefit students enrolled at the UT or boost the UT’s profile.

3. Classification of student organizations into categories
The nature of the association shall be shown by such factors as:
- The charter;
- The range of activities offered at present or in the past;
- The manner in which the association profiles and/or positions itself.

The Review Committee shall classify every interested student organization into one of the categories below based on extracurricular activities, thereby recognizing these organizations within the meaning of the Activism Grants Regulation.

Category 1:
Extracurricular activities which can easily be performed in addition to the full-time study week. These activities do not impede the study progress. This category is not eligible for remuneration in the attached basic list.
Category 2:
Extracurricular activities which:
- Cannot entirely be performed in the student’s free time and therefore encroach on the full-time study week;
- Benefit a substantial part of the student community. This category is eligible for financial remuneration.

Classification as either Category 1 or 2 is based on an estimate of the workload involved on the relevant board. If the workload infringes on the student’s ability to devote himself/herself fully to his studies on a weekly basis, then the board will be classified as Category 2. The classification has been initially determined based on the membership rolls as listed in the categorization tables. In practice, this means that a threshold has been set based on membership numbers. If this threshold is exceeded, then it can be assumed that board membership will infringe on the student’s ability to devote himself fully to his/her studies on a weekly basis. The Review Committee may deviate from the guideline (and consider the board membership to fall in Category 1) if the activities associated with the board membership give cause to do so.

Category 3:
Extracurricular activities which, in the CvB’s judgment, are very important to UT. This category is at least eligible for remuneration for the time spent organizing and/or executing the activity.

Note 1: This category encompasses an exhaustive number of extracurricular activities explicitly determined by the CvB. This list may fluctuate each year and shall be determined annually by the CvB. The student must, of course, satisfy the general conditions imposed for any student performing or board work to be eligible for financial remuneration.

Note 2: For the calendar years 2018 and 2019 this category is as follows:

1. Student Union Board;
2. University Council
3. Batavierenrace Committee;
4. Kick-In Committee;
5. Create Tomorrow Committee (once every two year);
6. Apollo Umbrella Board;
7. Fact Umbrella Board;
8. Sports Umbrella Board;
9. Study Associations Umbrella Board.
10. Umbrella Board UniTe
11. Bedrijvendagen

Category 4
Extracurricular activities of the “Team Twente” teams. In any case, this category is eligible to remuneration for the time spent working in the team.

Note 1: To ensure that an increase of the number of Twente teams in category 4 will not reflect on other boards and committees of associations, this will never lead to a decrease of the other categories from Annex B. This implies that an increase of category 4 brings about an increase in the budget for FOBOS.

Note 2: This category only contains teams with the predicate Twentse Teams by approval of the Board of the Twente Team umbrella organization with the consent of their supervisory board. This list can fluctuate per year. Of course, every student must comply with the terms and conditions to be eligible for a remuneration.
Note 3: For calendar years 2018 this category is as follows:
1. Electric Bike Team
2. Green Team
3. Robo Team
4. Solar Boat Team
5. Solar Team

4. Distribution within category 2
For the distribution of grants in category 2, there is made a distinction based on the various sectors. This distinction arises from the difference in workload and to what extent they meet the criteria.
Only full-fledged student members studying at UT of Saxion shall be counted as members. Persons who are members for a sharply reduced fee or who join the association to take advantage of certain services of the associations do not count.

Once every 2 years will be determined how the distribution for the next 2 years will be. The basis shall he the number of members on 1 November in the year preceding the date of the application.

The number of students in social clubs shall be determined based on the club’s own statement possibly being checked by the institution’s accountant by means of the fees (full fees) received.

For sports and cultural associations, the number of students shall be determined by means of the UnionCard data.

For study associations, the basic workload is almost equal. Activities are comparable and study associations have little influence on their growth, because of this the basic workload is higher and there is no basis to distinguish themselves on membership numbers.

Range of activities (for foundations)
Because foundations do not have any members, the number of students directly benefiting from the activities shall be used for foundations. The greater the scope of the activities, the more weight this shall be given in awarding activism grants.

For a foundation that manages a pub/clubhouse the following conditions apply:
- The association or related foundation must be responsible for the management and run its own catering operations. This must be evident from the position and activities description;
- The management and operation of the pub or clubhouse cannot occur entirely during free time and thus encroaches on the full-time study week. The operation of the pub or clubhouse benefits a substantial portion of the student community;
- The management of the pub or clubhouse benefit a substantial part of the student community;
- If more than one association is the main tenant, the activism grants may be divided up proportionately among those associations, based on the division of tasks;
- The pub or clubhouse must be located in one of the union buildings;
- A maximum of 25 activism grants per pub/clubhouse shall be allowed for managing a pub/clubhouse. If the pub or clubhouse is shared by multiple associations or foundations, the distribution of the activism grants shall mutually be agreed on by the associations or foundations.

5. Admission to and distribution within category 4
- The Team Twente Teams Board (TTT Board) determines yearly, on 1 November of the year preceding the calendar year, which teams will be recognized, the number of full-time and part-time team members and the allocation of activism grants
per team. The necessary budget will be established in advance, by the TTT-Board Board and the UT financial department (FEZ).

- Adding or removing a team in/from category 4 is always linked to whether or not owning the Team Twente recognition.
- The TTT-Board has the right to withdraw a Team Twente recognition if substantial evidence can be provided that a team does not meet the criteria for recognition.

6. Additional and ad-hoc grants

**General**
A number of activism grants are available for additional and ad-hoc activities. These are for calendar year:
- 2018: 765 grants:
- 2019: 730 grants.

The difference is because in 2019 Create Tomorrow takes place, for which 35 grants are available.

If there are activism grants left over after the grants, indicated in the basic list, are distributed, these grants may be used to award activism grants for additional or ad-hoc activities. The Student Union and Umbrella Boards shall be responsible for initially checking whether the requests submitted satisfy the conditions. If the applications encompass more grants than are available, the Student Union shall make a joint recommendation with the Umbrella Boards.

**Activism grants for additional activities**

An association or foundation may be eligible to additional activism grants if it organizes an activity which:
- Is in keeping with the nature of the association;
- Is special in nature or good for UT’s image;
- Requires a substantial investment of time for the organization.

Also the activity must benefit a substantial part of the student community.

**Ad-hoc activism grants**

For organizations wishing to organize an ad-hoc activity, ad-hoc activism grants may only be awarded if this activity has the following characteristics:
- The activity is special in nature;
- Organizing the activity cannot occur entirely during free time and thus encroaches on the full-time study week;
- The activity is good for the image of UT and/or Enschede as a student city;
- The activity benefits a substantial portion of the student community.

Organizations not on the basic list may also be eligible for ad-hoc activism grants, in order to encourage and reward initiatives by the student community.

Examples of ad-hoc activities:
- A National Student Championship;
- A conference;
- A festival;
- A performance series.

The establishment of an association may be regarded by the CPO as an ad-hoc activity. The CPO may award activism grants for such establishment; the SU will provide the CPO with a recommendation. The CPO must then state in writing the reasons for awarding or denying the grant. When a board is not eligible for grants from the basic activism grants list, the concern- ing umbrella may decide to allocate these board members with additional and ad-hoc grants.

7. Details of distribution of activism grants

**Associations**
Student associations at the University of Twente are grouped by sector. Umbrella organizations govern the sectors. There are a total of five umbrella organizations: Sportkoepel for sports associations, Apollo for cultural associations, Fact for social clubs, UniTe for the international associations and Organisation of Study Associations for the study associations. The recognition of the associations/foundations by the Union indicates under which umbrella organization each one falls under. Associations or foundations that do not fall under one of these umbrella organizations are assigned to the section ‘Other’, which falls under the auspices of the Student Union. Activism grants are also allotted according to this umbrella organization structure.

The following table shows the number of activism grants for the associations in the umbrellas Sports, Performing Arts, Social, World, Business and Other.

<table>
<thead>
<tr>
<th>Sports / Performing Arts / Social / World / Business / Other</th>
<th>Number of members</th>
<th>Max. number of activism grants p.p.</th>
<th>Maximum number of grants in total</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>20</td>
<td>33</td>
<td>0</td>
</tr>
<tr>
<td></td>
<td>34</td>
<td>66</td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>67</td>
<td>99</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>100</td>
<td>149</td>
<td>5</td>
</tr>
<tr>
<td></td>
<td>150</td>
<td>199</td>
<td>7</td>
</tr>
<tr>
<td></td>
<td>200</td>
<td>299</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>300</td>
<td>399</td>
<td>10</td>
</tr>
<tr>
<td></td>
<td>&gt;400</td>
<td>12</td>
<td>60</td>
</tr>
</tbody>
</table>

Example:
A sports association has 60 members. This means that the sports association exceeds the lower limit of 33 student members. This makes the board members eligible for 2 activism grants per person for a maximum of 3 board members. In the distribution this sports association is therefore listed for 9 activism grants.

If an association decides to work with more board members, the grants may be split up (into full grants) and distributed over several students; however, the total number of grants remains the same. Logically follows from this table, that if a board decides to work with less board members, the total number of grants per person remains the same as in the table above is displayed and the maximum number of grants will be less.

Example:
A culture association with 105 student members is entitled to up to 20 grants. The board has 5 board members. Each board member can apply for 4 grants.

The number of grants that is distributed in the umbrella Study does not dependent on the number of members per association, but is fixed according to the table below.

<table>
<thead>
<tr>
<th>Study</th>
<th>Number of members</th>
<th>Max. number of activism grants p.p.</th>
<th>Maximum number of grants in total</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Less than 100</td>
<td>0</td>
<td>0</td>
</tr>
<tr>
<td></td>
<td>100 till 200</td>
<td>7</td>
<td>35</td>
</tr>
<tr>
<td></td>
<td>From 200</td>
<td>12</td>
<td>60</td>
</tr>
</tbody>
</table>

If an association decides to work with more board members, then the grants may be split up (into full grants) and distributed over several students; however, the total number of grants remains the same.
Umbrella board members
Board members of umbrella organizations are entitled to activism grants according to the table below.

<table>
<thead>
<tr>
<th>Name</th>
<th>Max. number of activism grants p.p.</th>
<th>Maximum number of grants in total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Apollo</td>
<td>12</td>
<td>36</td>
</tr>
<tr>
<td>Fact</td>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>Organisation of Study Associations (OS)</td>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>Sportkoepel</td>
<td>12</td>
<td>36</td>
</tr>
<tr>
<td>UniTe</td>
<td>5</td>
<td>15</td>
</tr>
</tbody>
</table>

If an umbrella board decides to work with more than 3 board members, then the grants may be split up and distributed (into full grants) among more than 3 board members. However, the total number of grants remains the same.

Pub/clubhouse/shop
In accordance with Article 4 of Annex B, the organizations entitled to activism grants for managing a pub/clubhouse/shop are shown in the table below.

<table>
<thead>
<tr>
<th>Name</th>
<th>Max. number of activism grants p.p.</th>
<th>Maximum Number of grants in total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Antigoon</td>
<td>5</td>
<td>25</td>
</tr>
<tr>
<td>Asterion</td>
<td>5</td>
<td>25</td>
</tr>
<tr>
<td>De Sevende Camer</td>
<td>5</td>
<td>25</td>
</tr>
<tr>
<td>Flux</td>
<td>5</td>
<td>25</td>
</tr>
<tr>
<td>IAPC</td>
<td>5</td>
<td>25</td>
</tr>
<tr>
<td>KSUT</td>
<td>5</td>
<td>9</td>
</tr>
<tr>
<td>TRAM</td>
<td>5</td>
<td>25</td>
</tr>
<tr>
<td>Vestingbar</td>
<td>5</td>
<td>25</td>
</tr>
</tbody>
</table>

If the board of a pub/clubhouse/shop decides to work with more board members than mentioned in the table above, then the grants may be split up and distributed (in whole numbers) among multiple students. The total number of grants remains the same.

Category 3
The CvB has determined category 3 as follows:

<table>
<thead>
<tr>
<th>Name</th>
<th>Max. number of activism grants p.p.</th>
<th>Maximum number of grants in total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student Union</td>
<td>0</td>
<td></td>
</tr>
<tr>
<td>Kick In Committee</td>
<td>12</td>
<td>75</td>
</tr>
<tr>
<td>Create Tomorrow Committee (once every two year)</td>
<td>6</td>
<td>2018: 0 2019: 35</td>
</tr>
<tr>
<td>Batavierenrace</td>
<td>12</td>
<td>48</td>
</tr>
<tr>
<td>Apollo</td>
<td>12</td>
<td>36</td>
</tr>
<tr>
<td>Fact</td>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>Sportkoepel</td>
<td>12</td>
<td>36</td>
</tr>
<tr>
<td>Organisation of Study Associations (OS)</td>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>UniTe</td>
<td>5</td>
<td>15</td>
</tr>
<tr>
<td>Bedrijvendagen</td>
<td>10</td>
<td>60</td>
</tr>
<tr>
<td>University Council</td>
<td>9</td>
<td>81</td>
</tr>
</tbody>
</table>
If a committee/board from category 3 decides to work with more board/committee members, then the grants may be split up (into full grants) and distributed among multiple students. The total number of grants remains the same.

Category 4
Is determined as follows:

<table>
<thead>
<tr>
<th>Name</th>
<th>Max. number of activism grants p.p.</th>
<th>Maximum number of grants in total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Electric Superbike Team</td>
<td>12 (full-timer) 6 (part-timer)</td>
<td>168</td>
</tr>
<tr>
<td>Green Team</td>
<td>12 (full-timer) 6 (part-timer)</td>
<td>192</td>
</tr>
<tr>
<td>Robo Team</td>
<td>12 (full-timer) 6 (half-timer) 3 (part-timer)</td>
<td>117</td>
</tr>
<tr>
<td>Solar Boat Team</td>
<td>12</td>
<td>168</td>
</tr>
<tr>
<td>Solar Team</td>
<td>12</td>
<td>180</td>
</tr>
</tbody>
</table>

* Positions in participation such as membership of the Faculty Council or Programme Committee and the student assessor, are not eligible for activism grants, but are eligible for an attendance fee from the faculty.

**Cost calculation**
The ad-hoc/additional grants are intended to (also) reward activism in addition to the normal board work. This means, of course, that activism cannot be combined with a full-time study week.

The total number of activism grants in 2018 is 3303 (including 765 grants for additional and ad-hoc activities and excluding 825 grants for category 4).
The total number of activism grants in 2019 is 3303 (including 730 grants for additional and ad-hoc activities). The difference arises because Create Tomorrow will be organized in 2019. The number of grants for category 4 in 2019 will be determined at the end of calendar year 2018.

The compensation per activism grant is equal to 1/12th of the payable tuition fee per 1 September prior to the calendar year.
THE APPLICATION IN PRACTICE:

How many activism grants will the student receive?

Step 1. Does the student satisfy the conditions stated in the Activism Grants Regulation (for instance: full-time student, positive BSA, no pre-master student, etc.)

Step 2. The student’s position must be with a recognized association/organization (see Appendix B).

Step 3. The student must check the Fixed Basic List for Activism Grants as to the maximum number of activism grants.

Step 4. The grant will be paid to the student after the calendar year is completed. The application must be submitted before 1 April through the online application form.

How many activism grants will I receive as an association?

Step 1. Does the association satisfy the criteria for recognized associations? In other words, does the organization appear on the basic list?

Step 2. The association checks the number of grants to which it is entitled under the basic list.

Step 3. The association distributes the grants across the board members and/or committee members and submits the application form 1 April through the online application form.
Annex C: Procedure additional and ad-hoc activism grants

1. Yearly determination of the budget for additional and ad-hoc activism grants takes place in August preceding the concerning calendar year.

2. The board of the Student Union (SU), together with the umbrella boards, draws up a provisional application to divide the available activism grants for additional and ad-hoc activism grants and submit it at the CPO registry before December 1st of the year concerned. Eligible are:
   a. Associations/foundations named in the basic list for activism grants FOBOS in category 1 till 3;
   b. Organizations not named in the basic list for activism grants FOBOS, for example activities such as:
      - A national student championship;
      - A congress;
      - A symposium;
      - A festival;
      - A series of performances;
      - The foundation of an association.

3. The SU will discuss the provisional application of the grants with the CPO.

4. The SU contacts the umbrella boards in January after the year concerned, to discuss whether or not the activities mentioned in the provisional application have complied with the criteria and will give the CPO substantiated information in the exceptional case when activities are replaced by other activities. The definite application will be submitted at the CPO in January after the year concerned.

5. The associations/committees will submit the applications of the individual students before the 1st of April next to the year concerned.

6. The CPO registry files the applications of the individual students and ascertain their eligibility for activism grants and subsequently draws up the decisions to be send to the individual applicants.
