INSTRUCTIONS

- 1 There are two places where you can do the Dialang test:
 - (a) At home by downloading the program on your computer: www.utwente.nl/tcp.
 - (b) In the pc-room of the University Library.
- 2 The test takes about one to two hours to complete.
- 3 Choose 'Instructions in English' or the language of your choice and then press (>) in the toolbar to continue.
- 4 You can do sections of the test in any order you like: Reading, Structures, and Vocabulary.
- 5 Always follow the placement test using (>). Although doing the complete test is not compulsory within the Dialang programme, skipping parts of each section in the test may mean that questions posed will be at an inappropriate level as this is an adaptive test.
- 6 There is a self-assessment questionnaire; you can decide whether to do (>) or not (>>) do this self-assessment part.
- 7 After each part of the test, you will receive feedback. Please write down the following results for each part of the test:

	Your level A1 – C2	Check your answers	<i>how many correct answers?</i>	<i>how many incorrect answers?</i>
