Master Thesis title: _____

Quality of the structured abstract

Grade: (1 to 10)

X 0,5 Points:

For example taking into account:

- description of objectives
- Description of methods
- Description of results
- Description of conclusions

Remarks:

Quality of the introduction

Grade: (1 to 10)

X 1,0 Points:

For example taking into account:

- Problem setting
- Theoretical relevance
- Practical relevance
- General research question
- Research objectives
- Novelty of the research

Remarks:

Quality of the theoretical framework

Grade: (1 to 10)

X 1,5 Points:

For example taking into account:

- Selection and quality of used sources
- Relevance of used resources
- Definition of constructs and/or variables
- Hypotheses and/or (sub) res. Questions
- Conceptualization of research model
- Logic of structure and reasoning

Remarks:

Quality of the used methods and data collection

Grade: (1 to 10)

X 1,0 Points:

For example taking into account:

- Logic behind design and/or method
- Originality of design and/or method
- Design of instruments and/or protocols
- Validity of measures and protocols
- Reliability of measures and/or protocols
- Sampling and/or selection respondents
- Data collection procedure

Remarks:

Student name: _____

Quality of the data analyses and results Grade: (1 to 10) X 1,5 Points:

- For example taking into account:
- Logic behind data analyses
 - Appropriateness of chosen analyses
 - Correct execution of analyses
 - Correct interpretation of results
 - Correct reporting of (statistical) results
 - Reporting of unnecessary results

Remarks:

Quality of the conclusions and discussion Grade: (1 to 10) X 1,0 Points:

- For example taking into account:
- Addressing of main research question
 - Quality of argumentation
 - Reflection on theoretical implications
 - Reflection on methods and instruments
 - Reflection on research limitations
 - Reflection on practical implications

Remarks:

General reporting quality Grade: (1 to 10) X 1,0 Points:

- For example taking into account:
- Readability of the report / article
 - Structure of the report / article
 - Application of style conventions
 - Correct referencing of sources
 - Reference list and appendices
 - Lay-out & presentation of report / article

Remarks:

General remarks:

- Coversheet added to the report
- Research data handed in (first supervisor)
- Approval form of ethics committee added (applicable as of September 2013)
