Subject: **Minutes of the PC CreaTe/HMI meeting, 23 May 2014**

Committee members present: Dr M. Poel (chair), *dr. ir.* C. Salm, F. Lammers,  
J. Kolkmeier, M. Bruinenberg  
Others present: *dr. ir.* E.J. Faber (bachelor coordinator), B. Spikker  
(Support Staff, minutes)

---

### **1. Opening and announcements**

The meeting is opened at 09:05 by Poel.

#### *Announcements*

Salm states that she will have to leave the meeting around 10:00, and Poel will leave the meeting around 10:15. Van der Hoeven will join later.

Faber observes that he would prefer it if an evaluation plan was added to each module manual. This in connection with assurances. The programme committee agrees with this plan. Salm has created a directory on webdav for plans. **(decision)**

### **2. Setting the agenda**

Because of the time, not all items can be discussed. Item 5 is for informational purposes. Of the remaining students, only a few are studying two specializations simultaneously.

There are no documents available for item 8, which will therefore be moved to the next meeting.

### **3. Minutes of the programme committee meeting of 13 May 2014**

The minutes dated 13 May 2014 were approved without further comments or remarks.

#### *Action items:*

- 85. remains. Student Vincent Nibbelke has professed an interest and will be present at the next programme committee meeting to become acquainted.
- 87. remains.
- 100. has been settled and may be removed.
- 111. Van der Hoeven will plan a gathering for first-year students during lunch break. Not everything is known yet for second-year students. The resits especially still have to be determined.
- 112. has been settled and may be removed.

- 113. is on this agenda.
- 114. remains. Van der Hoeven explains the procedure. There should be a report in November 2014. This is therefore an urgent matter. It has been discussed and people are working on it.
- 115. remains.
- 116. has been done. This item can be removed.
- 117. has been done. This item can be removed.
- 118. remains.
- 119. belongs with item 113.

#### **4. Incoming/outgoing email**

*Mail Veldhuis* *time path Education and Examination Regulations (OER)*

Is for information purposes. As soon as the OER has been completed, place this on webdav and mail it to the members.

During the programme committee meeting of 10 June we will determine whether an extra meeting is still necessary.

*Mail Faber* *UT-wide module evaluation reports*

For information purposes. Accompanying report is very general in nature.

At EE there is an experiment being performed, namely that students from Twente are doing the Elect. & Magn. exam in Eindhoven (and vice versa) in order to determine whether the courses are interchangeable. Unfortunately there is no national educational programme comparable to CreaTe.

#### **5. Studying 2 specializations**

As has been previously reported, there are only a few students studying two specializations simultaneously. Therefore this item no longer requires attention.

#### **6. Transitional arrangements**

Faber addresses the meeting. Due to the arrival of modules, transitional arrangements need to be made. Shortages can occur due to the shifts in ECs. It is expected the problems will occur with the specializations especially. In case of shortages, Salm would like to provide additional supplements, enabling students to still successfully complete the course under the old course code.

At the time being it is unknown how many students it concerns, it is preferable to know first. This document needs to be distributed to teachers and the study adviser as well. It may be that they still have some notes or remarks.

For students it is important to know in which block a course will be given, due to the planning.

It is decided that this item will once again be on the agenda in June. **(action Spikker)**

#### **7. Module 6 draft**

Poel addresses the meeting. He was involved in developing the module.

Fail/pass regulations are not yet known as regards minimum rating. There is still some discussion about it. The module has to be finalized in September.

Poel further remarks that 1.3.4 Time distribution portfolio has by now been modified. This will be assessed by means of a pass/fail and will be supervised by Joke Oosterhuis.

It is further remarked that the word 'phase' on page 8 can lead to confusion due to the different context.

With the above noted the module is approved.

It is agreed to plan another programme committee meeting in July and at the end of August with regards to the modules. **(Action Spikker and members)**

In the programme committee meeting of June Technology <b>(action Spikker)</b>	discuss module 5 Smart
In the programme committee meeting of July Media <b>(action Spikker)</b>	discuss module 5 New

**8. Module 5**

Move forward to June.

**9. Questions**

-

**10. End**

At 10:00 the meeting was closed.

## 11. Actions
