Regulations regarding the minor programme quoted from the Teaching and Examination Regulations

The minor programme contains units of study with a total study load of 30 EC

- b1. The units of study in the minor programme are courses offered by an institution or programme which has an accreditation proving its university level¹, or comparable.
- b2. The units of study in the *minor programme* taken at the UT are modules which are officially recognized as minor modules (either HTHT, in-depth, -join-in or modules of a 'special' minor²); the only exception to this rule are the premaster packages.

¹ Although institutes for higher professional education are recognized as universities outside the Netherlands, they are **not** included in this Dutch use of "university level". For a minor programme at such an institute you need to ask permission of the Examination Board.

² Special minors are: Crossing Borders, Educative Minor, Board Minor
