

OPEN SCIENCE WEEK 2022, 20-23 JUNE

We cordially invite you to join the very first edition of the Open Science Week from 20th - 23rd June, a collaborative endeavour organised by UT's Digital Competence Center (DCC) and our Open Science Community Twente.

The idea of the Open Science Week is to raise awareness for OS and inspire researchers, PhD candidates and

students (the future researchers) towards a more open research culture. By inviting speakers and facilitating discussion, we hope to create curiosity for OS practices and reflection on the openness of the own work.

LET'S CREATE A RESEARCH ENVIRONMENT WITH MORE COOPERATION AND LESS COMPETITION.

DCC

The Digital Competence Centre (DCC) is an innovative university-wide network of expertise on:

- Open Science,
- Research Data Management,
- ICT for Research (infrastructure, tools, software) & Digitalization of Science.

We support and connect UT researchers with experts and each other. Stay up to date, learn and co-create with us!

Open Science Community Twente

Our overarching goal is to assist UT in accomplishing the transition towards OS. To facilitate the broader adoption of OS practices, we

- make OS more visible and accessible within and outside UT,
- organize events, seminars, and workshops,
- facilitate knowledge exchange amongst peers,
- support member initiatives focussed on OS, and
- connect with international OS communities.

P-NUT

PhD & PDEng Network University of Twente

P-NUT passes the borders of faculties, departments and even universities by bringing PhDs and PDEngs with different backgrounds together to share their experiences and help each other to grow and become more efficient in their work. Our main objectives are to bring people who share similar interests together in both a professional and informal way, to inform them on the important aspects that might affect or benefit their careers, and share and defend the rights of the doctoral candidates at the UT. These objectives define the three main goals of PNUT: connect, inform, and represent the PhD candidates of the University of Twente.
