

## **A BEAUTIFUL FUTURE**

It's 2070. Jamila walks into her vertical garden and picks her microgreen for tonight. She throws the green waste into her fermenter. The visitors tonight arrive by self-driving taxi. Django gets the remaining produce from the market. A local community of growers and protein producers. It's comfortable at home. The AI delivers the overshoot of warmth to the Oled TV. Thanks to augmented reality, a trip to Kenya is planned for tonight. After dinner they will watch giraffes and ride a rhinoceros. A peep goes off. The avatar is ready with water for Enschede.
