

BETTER CONDITIONS FOR THE ICU

Hi! We are TikTok influencers from secondary school. It is the year 2024. We create TikTok posts about life in the hospital. At the moment, we are trying to raise money for the ICU patients, so we can offer them good health and well-being. We know so many people in the ICU and we would like to help them. We have already raised 1500 euros! In addition to fundraising, with our humor and kindness we also make people happy in the ICU. We do respect their privacy.
