

'INFINITE' FUTURE

After a year with farewell, I go for a future where my children and grandchildren can live well. In welfare, in a world without poverty. As a born optimist I expect a future with ups and downs. Hope for new technologies that will help the issues today. Where we enjoy the world and nature around us. In the city, in a park, out there in 'nature'. Where I take a picture every day, to hold on to hope.
