

The paper "Interactive comparison of hypothesis tests for statistical model checking" by Pieter-Tjerk de Boer (UT/DACS), Daniël Reijsbergen (former PhD candidate at DACS, now at the University of Edinburgh) and Werner Scheinhardt (UT/SOR) was awarded the best tool paper award at the Valuetools conference in Berlin, last December.

The tool described in this paper is

at <http://wwwhome.ewi.utwente.nl/~ptdeboer/hyptest-for-smc/>
