

Short summary of the evaluation of Create Module 2 Smart Environments

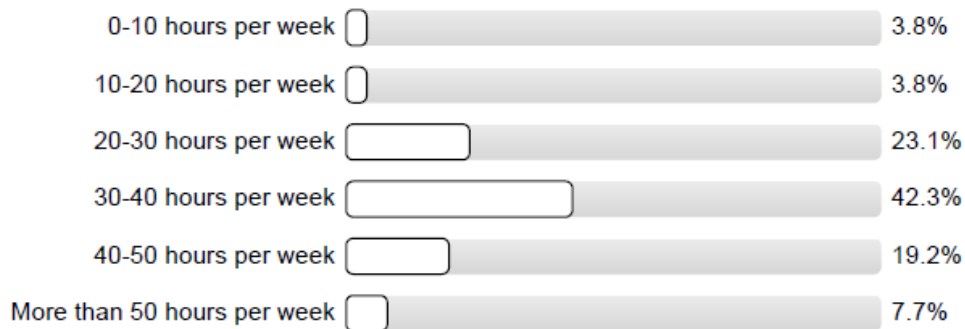

Create Module team: Hans Scholten (coordinator), Pepijn van Passel and Jan Koornstra

Available material: SEQ questionnaire and three CREEC evaluations.

The overall conclusions are that the module scores very (more than) satisfactory on every indicator except :

1. Prior Knowledge: Students had the feeling that they did not have enough prior knowledge for the Module.
2. Organization. Score on organization was low (avg. 2.8)
3. Project report was graded pass/fail without any feedback.
4. Grading of Sketching is vague. Some students miss the argumentation for the grade.

The experienced workload was very normal (last year the experienced workload was very high).

Overall the evaluation can be summarized in: The module improved a lot compared to last year. Only some (minor) issues remain.
