

# Pauline (Coolen-)Schrijner

## Some Memories

Frank Coolen

Durham University

Universiteit Twente, 26 Sept 2014

Pauline Schrijner completed her PhD thesis at Twente University in 1995 under supervision of Erik van Doorn.

Thereafter, she moved to Durham University (UK) where she was Lecturer, then promoted to Reader, until her untimely death in 2008. Following our marriage in 1998, she started to publish under the surname Coolen-Schrijner.

She maintained a fruitful collaboration with Erik van Doorn, and also collaborated with Phil Pollett, both of whom visited Durham on several occasions.

The following pictures are evidence of good times. Nice memories, presented here in gratitude to Erik, his wife Janny, and Phil for support and friendship!
