**\*\*This chart is a guide ONLY\*\*** Final placement decisions reside with IIE.

Member institutions are divided into three different categories based on their **capacity** to accept students. This list is not based on ranking or acceptance requirements.

Capacity is based on how many students the institutions both send and receive.

**Green (high capacity schools):** Likelihood of having space to accept students is HIGH (this school can accept a high number of students)

**Yellow (medium capacity schools):** Likelihood of having space to accept student is MEDIUM (this school can accept several students and the chances of being placed here is relatively good, although for some schools, there may be a cap on the numbers)

**Red (low capacity schools):** Likelihood of having space to accept students is LOW (this school can usually accept a very small number of students, or may not be able to accept any students at all)

This chart varies from semester to semester, and placement cannot be guaranteed.

Green (high capacity schools)	Yellow (medium capacity schools)	Red (low capacity schools)
