

Educational Science and Technology in part-time 2024-2025

Pre-master: duration 1 year

	Generic academic course (15 EC)
	Domain-specific (EST) courses (15 EC)
	Self study package EST

		Semester 1		Semester 2	
		Quartile 1A	Quartile 1B	Quartile 2A	Quartile 2B
Self study pack. EST		Research Methodology and Descriptive Statistics (202001402) (5 EC)	Inferential Statistics (202200378) (5 EC)	Designing for Learning in Schools and Organisations (5 EC) (202000264) (5 EC)	Research Studio (202300147) (10 EC)
		Academic Writing (202400115) (5 EC)			
		10 EC	5 EC	5 EC	10 EC
Self study package EST					

- **Study load** on average 20 hours per week (however not equally distributed over quartiles!)
- **Minimum 2 days, but preferably 3 days/week** are needed to complete the pre-master within the part-time timeframe.
- **Lecture days in Pre-master** (not always full days, but you must be able to come to the UT on these days): **Thursday + Friday + lectures on various other days of the week during the first semester in which you take the Statistics courses.**
- No evening classes. Most classes are scheduled on campus and must be attended in person.
- **Pre-master fee per EC** (one-off fee) for 30 EC: in 2024-25 € 1.265 / 2025-26 €
- **Start** possible in September or February

IMPORTANT: The content of the part-time programme is exactly the same as the full-time programme; the only difference is that in the part-time mode the courses are spread out over a longer period because fewer courses are taken per quartile, and thus the study load is reduced.

There are no special regulations for part-time students in the programme and when enrolled in a course, the course must be followed in the same way as, and together with, the full-time students.

We certainly make an effort to stick to the preferred lecture days as mentioned, but this cannot always be guaranteed. No rights can be derived from the choice for the part-time route.

Master: duration 2 year

	Core Course
	4 Elective courses
	Research Proposal
	Final Project

Year 1			
Quartile 1A	Quartile 1B	Quartile 2A	Quartile 2B

Year 2			
Quartile 1A	Quartile 1B	Quartile 2A	Quartile 2B
Research Proposal EST 201200035 (5 EC)			
Final Project EST 201200036 (25 EC)			

- **Study load** for 2 year trajectory: on average 20 hours per week (however not equally distributed over quartiles in the first year, depending on following 1 or 2 courses)
 - **Minimum 2 days, but preferably 3 days/week** are needed to complete the master within the part-time timeframe.
 - **Lecture days in Master** (not always full days, but you must be able to come to the UT on these two days): **Monday + Tuesday**.
 - No evening classes. Most classes are scheduled on campus and must be attended in person.
 - **Statutory tuition fee ('wettelijk collegegeld')** rate **part-time** (per study year):
in 2024-25 € 1.851 / 2025-26 €
- In case of **Institutional tuition fee ('Instellingstarief')** for a **second Dutch** master, or for **non-EEA** students, (per study year): in 2024-25 € 14.250 / 2025-26 € ...
- **Start** possible in September or February

IMPORTANT: The content of the part-time programme is exactly the same as the full-time programme; the only difference is that in the part-time mode the courses are spread out over a longer period because fewer courses are taken per quartile, and thus the study load is reduced. The final project trajectory also takes longer because you work fewer hours per week on it. There are no special regulations for part-time students in the programme and when enrolled in a course, the course must be followed in the same way as, and together with, the full-time students.

We certainly make an effort to stick to the preferred lecture days as mentioned, but this cannot always be guaranteed. No rights can be derived from the choice for the part-time route.
