LAPTOP!**

Additional information:

Facility Market

Various organizations will be present at the Facility Market to help students handle all kind of administrative matters. The checklist will guide the students in organizing all those things. The Facility Market is strongly advised for all international students. Make sure you go there!

Practical session per Programme by student advisor, track coordinators, master coordinators and student assistants

During this session, students will be introduced to the educational systems of the University such as Canvas, Osiris, My timetable. They will also have the opportunity to pick courses and talk to the different track coordinators. It is important to bring your laptop to this session.

Programme by Study Associations

Students will have the opportunity to register with their study association and to order books. In addition, a tour around the building will be given.
