P-NUT WHATSAPP GROUP

The P-NUT WhatsApp group provides a place for us to talk to each other, look out for each other and contact fellow doctoral candidates for support. You can suggest your ideas (e.g., events to be organized) and get in touch with your peers. After registration, we will provide you a link to join our WhatsApp group.

BENEFITS OF JOINING THE GROUP

- Ask for help with regulations, or any other related assistance;
- Let your peers know if you're self-isolating so someone can make sure you're okay;
- Get informed about new events sooner than via the P-NUT newsletter;
- Initiate events by yourself (e.g., walking on Campus or having a daytrip to a recreation park);
- Share (important) updates from official P-NUT sources (e.g., about events, surveys, etc.).

SOME DRAWBACKS OF JOINING THE GROUP

- We want to caution against the sharing of misinformation or speculation in the group, but we hope it can serve as a useful resource for building an effective support network;
- We suggest to mute notifications from this group, as it can be SPAM-intensive.

VACANCY RESEARCH DATA STEWARD

The UT is looking for research data stewards (in total for 2 fte) to support the implementation of research data management (RDM) and FAIR data.

Research data stewards support researchers with all parts of RDM such as a data management plan, data collection, data storage, data cleaning, data analysis and long term archiving.

The data stewards will shape the services together with the ICT account managers of LISA and the research support staff at the faculties.

For more information check this (internal) [vacancy description](#).

About P-NUT

P-NUT passes the borders of faculties, departments and even universities by bringing PhDs and PDEngs with different backgrounds together to share their experiences and help each other to grow and become more efficient in their work. Our main objectives are to bring people who share similar interests together in both a professional and informal way, to inform them on the important aspects that might affect or benefit their careers, and share and defend the rights of the PhDs and PDEngs at the UT. These objectives define the three main goals of PNUT: **connect**, **inform** and **represent** the PhD candidates of the University of Twente.

Interested in representing and supporting your fellow PhD and PDEng candidates? Join the P-NUT board! As part of the board you become the voice of a community but also find constant opportunities to develop personally and professionally. Simply write us an e-mail.
