SUBJECT

Advice regarding the EEMCS Master's and Systems & Control (S&C) Education and Exam Regulations (EER) by the Systems & Control (S&C) Program Committee (PC)

Dear Members of the EEMCS Faculty Council and EEMCS Director of Education,

In their meeting of 7 April, 2020 the Systems & Control Program Committee has concluded towards a positive advice regarding the proposed EEMCS Master's EER (part A) and Systems & Control EER (Part B) for academic year 2020-2021. However, we would like to add the following remark requesting further clarification:

Part A - EEMCS Master's EER

Article A3.8 Composition of the assessment committee for the Final Project

In the first paragraph it is stated that at least one of the examiners in the committee should be a "senior examiner", but the requirements for being such a "senior examiner" are not clarified. To our opinion associate and full professors qualify as "senior examiners". In addition we can understand that assistant professors can also qualify in case they have acquired the UTQ, combined with some number of years of relevant work experience.

If you have any further concerns/questions, please do not hesitate to contact us.

Sincerely,

Prof. Sarthak Misra
Co-chair S&C PC

Dr. Ronald Aarts,
Co-chair S&C PC
