SUBJECT  
Positive advice from the Systems & Control (S&C) Program Committee (PC) regarding the proposed change of the compulsory courses as listed in the EER-S&C

Dear Dr. Korsten,

In their meeting of September 29, 2022, and additional email conversation, the Systems & Control Program Committee has discussed your letter about the “Adaptation of the EER-S&C regarding compulsory courses” of August 23, 2022.

The Program Committee agrees with your proposal to offer students the option to complete the new course “Modelling, Dynamics, and Kinematics” (202200101) instead of the existing course “Modelling and Simulation” (191211110) in their core programme. With this alternative it is still guaranteed that the learning goals of the programme are met, while some difficulties in the course planning can be avoided. Hence we fully support your proposal.

If you have any further concerns/questions, please do not hesitate to contact us.

Sincerely,

Prof. Sarthak Misra  
*Co-chair S&C PC*

Dr. Ronald Aarts,  
*Co-chair S&C PC*
