SUBJECT  
Positive advice from the Systems & Control (S&C) Program Committee (PC) regarding the proposed discontinuation of the MSc Systems & Control programme

Dear Dr. Korsten,

In their meeting of September 29, 2022, and additional email conversation, the Systems & Control Program Committee has discussed your letter about the “Discontinuation of the Systems & Control master’s programme” of August 23, 2022.

The Program Committee agrees with your proposal to discontinue the programme. As you explain in your letter, this intention has already been expressed in the proposal to start the MSc Robotics programme. After the approval of the new programme, we agree with the steps towards discontinuation of the current programme. Furthermore, we appreciate your considerations regarding the time scheme involved with this discontinuation and the planned measures to be taken to inform current and future students who enrol in the Systems & Control programme as long as this is still possible,

If you have any further concerns/questions, please do not hesitate to contact us.

Sincerely,

Prof. Sarthak Misra  
Co-chair S&C PC

Dr. Ronald Aarts,  
Co-chair S&C PC
