SUBJECT
Positive advice from the Systems & Control (S&C) Program Committee (PC) regarding the proposed compulsory courses for the MSc Robotics programme

Dear Dr.ir. Broenink and Dr. Heidi Muijzer-Witteveen,

In their meeting of June 2, 2022 the Systems & Control Program Committee has discussed the document with the “Course Descriptions of Compulsory Courses MSc Robotics” that we received from you.

The Program Committee concluded positively about the coherent set of compulsory courses and only a few minor, mostly textual remarks were made. Shortly after the meeting you shared an updated version of the document for a final evaluation by the Program Committee.

The Program Committee has no further comments on this course list from which you may conclude a positive advice to start the MSc Robotics with the proposed compulsory courses.

If you have any further concerns/questions, please do not hesitate to contact us.

Sincerely,

Prof. Sarthak Misra
Co-chair S&C PC

Dr. Ronald Aarts,
Co-chair S&C PC
