# ABOUT THE UNIVERSITY OF TWENTE

Based in Enschede in the East of the Netherlands, the University of Twente (UT) is leading in new technology to drive change, progress, and innovation in society. Voted the most entrepreneurial university in the Netherlands four times in a row, UT is an international platform for talent, attracting students who all share a curious, entrepreneurial spirit. With three powerful research institutes and nearly 400 labs, our ambitious students, scientists, and educators have access to a first-class research and learning environment.

## A UNIQUE LEARNING APPROACH

All bachelor's programmes at the University of Twente are designed based on the Twente Education Model (TOM), a student-driven, challenge-based, project-centred, and cross-disciplinary approach. This unique learning approach helps students to become self-reliant, entrepreneurial professionals, able to collaborate with others in changing teams, combining their own expertise with that of students from other disciplines – giving them a great kickstart to their future careers.

## PERSONAL EDUCATION IN A SAFE ENVIRONMENT

Our university is small-scale, meaning lecturers are approachable and know students by name. As a result, students not only benefit from personalised teaching, but they also quickly feel safe and at home. Student well-being is one of UT's top priorities, and students highly rate the study guidance at UT, according to the National Student Survey (NSE).

## THE MOST ENTREPRENEURIAL UNIVERSITY IN THE NETHERLANDS

With over 1,000 start-ups to our name, UT is recognised as the most entrepreneurial university in the Netherlands. We offer Incubase, an incubator that will support students in building their own start-ups. Furthermore, students can participate in inspiring events, focused on innovation and entrepreneurship, like the UT Entrepreneurial Challenge or Create Tomorrow, the world's largest student think tank.

## MORE THAN A DEGREE

At UT, we know that competencies like leadership, self-management, showing initiative and taking decisions cannot be developed from study books. We highly encourage our students to broaden their horizons and to be active alongside their studies. For example, by fulfilling certain roles in an association or a student team.

# THE ONLY **ALL-IN CAMPUS** IN THE NETHERLANDS

The University of Twente is the only all-in-campus university in the Netherlands. It is like living in a small village with 3,000 student houses and apartments. A green, lively environment that covers 146 hectares – approximately 200 football fields. Here, students can find anything they need to learn, work and live. And the city centre of Enschede is only a 10-minute bike ride away.

Students can find accommodation both on- and off-campus.

More information about housing via [utwente.nl/housing](https://utwente.nl/housing).
