

Februari 3rd 2017 MII first year master students will conclude the case with a presentation of the results.

Program Track Medical Imaging and Intervention (NH119)		
Rene Brouwer en Anique Grob		
9.00-9.30	Group 1 <i>Joosje de Bakker</i> <i>Evelien van Genugten</i> <i>Lisanne Roelofs</i> <i>Angelique van Vlaenderen</i>	Additional guidelines for vein mapping with the use of RI, comorbidities and pulsality to access the vessel wall and potential stenosis to achieve better AVF maturation
9.30-10.00	Group 2 <i>Rick Bergmans</i> <i>Reneé Geraats</i> <i>Stephan Romeijn</i> <i>Madelon Voets</i>	Evaluating venous elasticity as a diagnostic parameter determine optimal vascular access surgery in haemodialysis
10.00-10.30	Group 3 <i>Timon ter Braak</i> <i>Jane Gruisen</i> <i>Philippe de Rooy</i>	
10.45-11.15	Group 4 <i>Mechteld Brasz</i> <i>Jurre Klaassen</i> <i>Huib Ruitenbeek</i>	The influence of inter-observer variability on vascular mapping
11.15-11.45	Group 5 <i>Tessa Brouwer</i> <i>Nienke de Laat</i> <i>Bas Schippers</i> <i>Nienke Wassenaar</i>	Effect of increasing the hand temperature using heat elements on the diameter of the cephalic vein and the diameter and flow in the radial artery for assessment of vascular access via arteriovenous fistula for hemodialysis.
11.45-12.15	Group 6 <i>Nadine Coorens</i> <i>Alexander Lou</i> <i>MarkSelles</i> <i>Beau van Woudenberg</i>	Intra and interobserver reliability of ultrasound imaging for preoperative venous mapping
Pauze		
Lioe-Fee de Geus-Oei en Bennie ten Haken		
13.00-13.30	Group 7 <i>Rob van Dijk</i> <i>Chien Nguyen</i> <i>Michelle Simons</i> <i>Lisanne Zwart</i>	Possibilities of imaging modalities in monitoring early treatment response of neoadjuvant chemotherapy in breast cancer.
13.30-14.00	Group 8 <i>Mathijs Disselhof</i> <i>Jos Nijhof</i> <i>Stefan Smorenburg</i> <i>Jasper van der Graaf</i>	Diffuse reflectance spectroscopy in reducing breast cancer re-excision rates
14.00-14.30	Group 9 <i>Lotte van Dongen</i> <i>Liset Noltes</i> <i>Ilse Spenkelink</i> <i>Annelies Winkelhorst</i>	Contrast Enhanced Ultrasound with BR55 coated microbubbles compared to MRI in the diagnosis of breast cancer
Pauze		
14.45-15.15	Group 10 <i>Maaïke Dotinga</i> <i>Tom Perik</i> <i>Merel van der Stelt</i> <i>Ellis Winters</i>	
15.15-15.45	Group 11 <i>José Enthoven</i> <i>Maarten Poirot</i> <i>Bart Thomson</i>	F^{18} -FES PET patient specific dosing of fulvestrant on estrogen receptors in post-menopausal patients with estrogen receptor positive breast cancer.
15.45-16.15	Group 12 <i>Matthijs Fitski</i> <i>Jonas Rijsen</i> <i>Koen Verdonschot</i>
