ONDERWERP: Student elections Faculty Council 2019

Dear students of the faculty Science & Technology,

Soon there will be new elections for the faculty council (FC) of S&T. The FC is a council consisting of students and employees of the faculty that advice and check the dean and his management team. Every year a few members leave the FC and their positions become vacant. We are now looking for students who want to develop themselves besides their study or who have interest in affairs on a faculty and university-wide scale. Experience in another council or board comes in handy, but is not required.

As a FC member you will have a meeting with the faculty management team every 6 weeks and in between these meetings you will meet 2 times with the FC. This means that in total you will have a meeting every 2 weeks. To give you an idea of the topics that were recently on our agenda: internationalization of the faculty, establishing the Education and Examination rules and furthermore we look into the annual plan of the faculty and employee affairs. As a student actively participating in the faculty council, you can be of great importance for the education of your own study program.

Are you interested to be a part of the FC and to take part in the decisions that are made for our faculty?

Please take part in the upcoming elections by sending an email to bfd-tnw@utwente.nl **before the 11th of April!** For more information, visit our website at <http://fr.tnw.utwente.nl>. And don't hesitate to come to us with questions.

Kind regards,

Thomas van der Meer (Msc-AP) (chair)
Noor van de Beek (B-ST)
Nina Doorn (B-TG)
Emilie Dubbelman (B-ST) (secretary)
Thom Goesten (B-AT)
Naut Seemann (B-GzW)
Femke Witmans (B-TN)
