series of International Conferences on
the Physics of X-Ray Multilayer Structures

1992 - 2010

2016: revival !

Goal PXRNMS

- ✓ Revive and continue tradition of 10 bi-yearly conferences
 - Jackson Hole (1992), Wyoming (1994), Breckenridge (1996, 1998), Chamonix (2000, 2002), Sapporo (2004, 2006), Montana (2008, 2010)
- ✓ Help advance the field of multilayer technology
 - by bringing together researchers from around the world in an informal, relaxed and intimate setting
 - offer a meeting platform for physics of optical tools for short wavelengths
