Shaping2030 strategy process

Dear colleague,

Over the last year, many UT-colleagues and students contributed to conceiving a new mission, vision and strategy for the University of Twente towards 2030. Shaping2030 is the result of a genuine co-creation process. Academic staff, support staff, students, experts and management worked side-by-side to deliver bold plans that we feel perfectly fit our university. The Executive Board greatly appreciates everyone's commitment and thanks all of you for your enthusiastic and passionate contributions.

With genuine pride we state that we want to be the ultimate people-first university of technology. We strive to empower society through sustainable solutions.

As Executive Board we are very proud of what we have achieved together and of the ambitions we want to pursue as set out in this document.

We have sent our new strategy to the University Council for its assessment. We truly hope that the UC will embrace our ambitions.
