

Leanne Mullen, PhD – Publisher, Polymers

Leanne completed a PhD in Materials Science from the University of Cambridge. She has been working in publishing since 2012. During her publishing career, she has worked in various disciplines including applied mathematics, materials science, physics and engineering. Leanne is currently Publisher of *Progress in Polymer Science*, *Polymer*, *European Polymer Journal*, *Polymer Degradation and Stability*, *Reactive and Functional Polymers*, *Progress in Organic Coatings* and *Polymer Testing*. Leanne's role also involves managing both the International Conference on Multifunctional, Hybrid and Nanomaterials and the International Symposium Frontiers in Polymer Science.

Marlene Silva, PhD – Associate Publisher, Metals & Engineering

Marlene is a Publisher in Elsevier's Materials Science group since 2016, focusing on journals related to Metals & Engineering. She has a PhD in Particle Physics and has worked as a scientist in Radiotherapy research in the Academic Medical Centre in Amsterdam. While working for the Netherlands Organization for Scientific Research and Elsevier she discovered her passion for developing science outreach methods for the 21st century.
