

# MIRA

BIOMEDICAL TECHNOLOGY  
AND TECHNICAL MEDICINE

## EVENT: THE POWER OF COLLABORATION IN INNOVATION

On **19 June 2014** MIRA and Technical Medicine will host an **innovative event** for leading scientists, clinical professionals, entrepreneurs, students and journalists.

Including an interactive 'Meet the Clinicians' session, workshops, state of the art research and breakthrough results.

### PLEASE SAVE THE DATE!

We are looking forward to meeting you on June 19th to share knowledge and ideas. Follow us on twitter (@MIRAutwente) or visit our website ([www.utwente.nl/mira](http://www.utwente.nl/mira)) to stay updated on the programme.

MIRA is the University of Twente's Institute for Biomedical Technology and Technical Medicine. This unique research institute combines top technology and first-rate solutions in technical medicine to perfectly fit the treatment of patients.

Technical Medicine is the University of Twente's Bachelor and Master programme that uniquely links science and technology with the clinical practice of medicine.

This interdisciplinary programme consists of specialisations in the field of Medical Sensing & Stimulation and Medical Imaging & Interventions.
