Recommendations by the committee:

It appears that the quality of the course can be improved. Therefore, the evaluation committee makes a recommendation:

- Increase the level of exercises / try to match the level of questions at the exam with the level of questions used as exercises. Some students were surprised by the level of the questions at the exam.
- Because of the high valuation of all the individual parts we can only ask to continue the course like this.

Overview:

- Most marks are given on a scale from 1-5 and converted to a scale from 2-10 by multiplying with a factor 2. Therefore, a mark of 6.0 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
- Tempo of lecture grades: 2 is too fast, 6 is perfect, 10 is too slow.
