

Evaluation report System innovation & strategic niche management

The evaluation committee has evaluated the course Solar Energy by sending an online questionnaire to 21 students. 13 students filled in the questionnaire, which gives a response of 62%.

The overall appreciation for the course System innovation is marked with a 7.1, which is sufficient for a master course. The relevancy is one of the two aspects which were marked insufficient with a (6.6) an 'contents interesting' (6.2). All grades for the exam were above 8, note here that the examination was a paper. The study material was graded with an 8.5.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations by the committee:

The quality of the course should be improved. Recommendations are therefore given by the evaluation committee. The most important recommendations are:

- The relevancy has to increase and the course should be made more interesting to the students. Perhaps it is possible to combine the courses Energy and Economy and System Innovation & Strategic Niche Management. This could possibly improve the relevancy.
- 31% of the respondents thought the tempo of the lectures was too slow. The reason for this could be that subjects were repeated in different lectures. Try to avoid too much repetition.
- One respondent said there was too many information on one slide. Try to improve the quality of the slides.

Remarkable Facts:

- All respondents said there was enough time to complete the course.
- The teacher was highly available for questions, this was marked with a 9.5.

Overview:

- Most marks are given on a scale from 1-5 and converted to a scale from 2-10 by multiplying with a factor 2. For master courses, a mark of 7.0 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.

Orange	General
Yellow	Lectures
Blue	Study material
Purple	Examination / Final Assignment

Marks	
Total appreciation	7.1
Ability to study	8.3
Relevancy	6.6
Quality of education	7.7
Coordination / planning	8.5
Examination / Assignments	8.4
