

Evaluation report Wind Energy – 2009/2010

The evaluation committee has evaluated the course Wind Energy by sending an online questionnaire to 27 students. 12 students filled in the questionnaire, which gives a response of 44%.

The overall appreciation for the course Wind Energy is slightly beneath the required 7 for a master course (6,7). Almost all other aspects of the course are valued as sufficient. The availability of the teacher is appreciated very much (9,3) and the contents of the course are interesting to the students (8,8). The quality of the lectures, the study material and the exam is rated as sufficient with marks around 7.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations by the committee:

Due to the high marks and the lack of comments, we are not able to do any recommendations for this course. We can only ask to continue the course as before!

Overview:

- Most marks are given on a scale from 1-5 and converted to a scale from 2-10 by multiplying with a factor 2. Therefore, a mark of 6.0 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
- Tempo of lecture grades: 2 is too fast, 6 is perfect, 10 is too slow.

Orange	General
Yellow	Lectures
Blue	Study material
Purple	Examination / Final Assignment

Marks	
Total appreciation	6,7
Ability to study	6,9
Relevancy	7,7
Quality of education	7,6
Coordination / planning	8,2
Examination / Assignments	7,4
