

Evaluation report Maintenance Engineering & Management – 2012/2013

The evaluation committee has evaluated the course Maintenance Engineering & Management by an questionnaire to 9 students. 8 students filled in the questionnaire, which gives a response of 89%.

The course is reviewed with a 7.3, which is a satisfactory mark for a master course. Many marks were good, but the assignments could be clearer. Some students say that the lecture tempo of some lecturers was a bit too fast. The assignments in groups helped a lot to understand the subject but the workload was too high.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations by the committee:

The quality of the course can be improved. Based on the results of the questionnaire, some recommendations for improvement are provided. The most important recommendations are:

- Almost all students mention that the workload is too high, skip some assignments or make them smaller. One student says that assignments 1 and 5 can be eliminated from the course.
- Make the assignments clearer, some assignments were too vague.
- One student mentions that having some working classes will be good so you can ask questions.

Overview:

- Most marks are given on a scale from 1-5 and converted to a scale from 2-10 by multiplying with a factor 2. For master courses, a mark of 7.0 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
