## Remarkable Facts:

The only open comments were:

- All slides available at the start of the course, absolutely brilliant!
- Not suitable for self-study if you are not a biomedical student.
- Was expecting a more technical course (navier stokes..), but still am very pleased with what I've learned.

## Overview:

- Most marks are given on a Likert-scale from 1-5. For master courses, a mark of 3.5 or higher is sufficient.
- The height of the bars in the graph represents the mark. The thin line at the top of the bars gives the standard deviation.
