prof. dr. A. Blume

The evaluation committee has evaluated the course Elastomeric Technology by handing out a paper questionnaire to 5 students. 5 students filled in the questionnaire, which gives a response of 100%.

The course Elastomeric Technology scores a 4.4 average which is very good for a master course. Respondents find this course very relevant (4.6) and interesting (4.8). The quality of education scores a 4.6. However, there are some recommendations to make this course even better. Respondents mention that they would like a reader. A respondent mentions that the access to blackboard is practically impossible for guests. Improve this to make the course even better and keep up the good work.

These are the main conclusions of the evaluation. The interpretation is based on the remarks of the respondents. For an overview of the results, see the graph at the end of this report.

Recommendations of previous evaluation
